CORE COMPETENCIES

Quality Control & Quality Assurance | Food Safety & HACCP | R&D and New Product Development | Food Formulation & Product Optimisation | Production & Process Support | Sensory Evaluation | Shelf-life & Stability Assessment | GMP, GLP & ISO 22000 | Technical Documentation & SOPs | Laboratory Testing & Analysis | Food Quality Assessment | Microsoft Excel & Office

SKILLS

- HACCP & Food Safety Management (RSPH Level 3)
- Quality Assurance (QA) & Quality Control (QC)
- ISO 22000:2018 Food Safety Management Systems
- GMP, SOPs & Compliance Documentation
- Production Operations & Process Control
- New Product Development (NPD)
- Sensory Evaluation & Shelf-life Analysis
- Raw Material & Packaging Evaluation
- Cross-functional Team Coordination
- Microsoft Excel, Word & PowerPoint

TECHNICAL SKILLS

- Laboratory: Kjeldahl system, spectrophotometer, viscometer, rheometer, antioxidant analysis
- Research & data: Qualtrics, IBM SPSS, experimental design, data collection, documentation and interpretation
 - Food safety & quality: HACCP, GMP, GLP, ISO 22000, FSSC, food quality management
 - Leadership: Founding Member, Skill Development Club of HSTU; Students' Welfare Secretary, Food Engineers' Association, HSTU
 - Sports: Represented HSTU in Inter-University Badminton Tournament 2019

PROFILE

Food Engineering and Food Innovation professional, graduated with an MSc in Food Innovation from the University of Greenwich, with 3+ years of industrial R&D experience in beverage and dairy product development. Skilled in QA/QC, food safety, formulation, NPD, sensory evaluation, shelf-life assessment and production support. RSPH Level 3 HACCP certified with ISO 22000:2018 training and strong knowledge of GMP, SOPs and food quality systems. Seeking opportunities in R&D, QA, QC or Production in food industry.

PROFESSIONAL EXPERIENCE

LANGOSTERIA UK, LONDON

Supervisor | 2026 – Present

- Supervise daily restaurant operations and team performance.
- Conduct food safety, hygiene and HACCP checks.
- Monitor food handling, storage, temperature and cleanliness.
- Support stock control and product storage.
- Train staff on food safety, SOPs and service standards.
- Monitor compliance and address operational issues promptly.

Research & Development Executive

Oct 2022 – Jan 2025

Akij Food & Beverage Ltd., Bangladesh

- Developed and optimised beverage and dairy formulations from lab to pilot scale
- Led NPD trials for fruit drinks, electrolyte drinks, malt beverages, and flavored drinks
- Prepared SOPs, technical reports, batch documentation, and manufacturing instructions
- Conducted sensory evaluation, shelf-life, and stability studies
- Coordinated with QA/QC teams to ensure regulatory compliance
- Supervised over 50 production staff ensuring GMP and hygiene compliance
- Evaluated alternative raw materials and packaging to reduce production costs
- Supported successful product launches from concept to commercialization

RESEARCH & SELECTED TECHNICAL PROJECTS

Research Assistant, Institute of Research and Training, Department of Food Engineering and Technology, HSTU: gelatin-CMC biodegradable packaging films for food applications; laboratory experimentation, sample evaluation and research documentation.

- Research Project: Effect of Microwave Heating on Quality Attributes of Sugarcane Juice During Refrigerated Storage: experimental assessment of product quality during storage, data documentation and interpretation.
- Publication: Effect of Temperature on Drying Kinetics, Physico-Chemical Properties and Antioxidant Activity of Cabinet Dried Whole Jujubes (2025).

EDUCATION

Master in Food Innovation

University of Greenwich, London, UK

2025-2026

Masters in Food Engineering & Technology | HSTU,

Bangladesh

2021-2022

Bachelors in Food & Process Engineering

HSTU, Bangladesh

2016-2021
